Accessories for the Eos

QUALITY + SAFETY = VOLKSWAGEN

Your satisfaction is our quality standard – down to the smallest detail. To fulfil this, we only use high-quality materials – excellently manufactured using state-of-the-art production processes and perfectly adapted for your Volkswagen.

Our safety is our priority – down to the smallest detail. For this reason our products are subjected to safety inspections which meet the most stringent requirements and far exceed the legally prescribed standards.

Your Volkswagen is our benchmark – down to the smallest detail. This is why every Volkswagen Genuine Accessories product is developed in conjunction with the vehicle. Our goal: everything must fit perfectly. So that your Volkswagen stays a Volkswagen.

Chocks away for all high-flyers.

Wanting to go up and away, out into the lead or just be a front runner is not merely a dream. It is simply a matter of attitude. And - admittedly - a matter of accessories. Fortunately, we have nothing but good news for the stylish high-flyers of tomorrow: Volkswagen Accessories provide tailwinds. No matter which direction your journey takes you. Heavenly!

01 Rear lid spoiler

The rear lid spoiler is not just a real optical gain for your Eos. Because in addition to the flair of untamed horse power, the spoiler delivers noticeably better aerodynamics. Or more precisely: for a reduced tail uplift and therefore for much better handling on the road. The spoiler made of PU hard integral foam is simple to apply using glue, is primed and can be painted in the colour of your car.

05 Volkswagen Genuine Interior rear view mirror in carbon look

Give your car the crucial additional touch of sportiness and customisation with the Volkswagen Genuine interior rear view mirror in a sporty carbon look. It is easier than you think: The interior rear view mirror already fitted in the vehicle is simply replaced with the carbon design rear view mirror. Only for cars with manually adjustable anti-glare rear view mirrors.

The way natural movement is supposed to look.

Or something like it. Or exactly the way you want it. We have created as many natural choices for you as possible so that your Eos can bring you as close as possible, not just to worldly nature, but also to your own nature. Just pick your favourite from the equally broad and comprehensive range of Volkswagen Accessories tyres and wheels. And then you are ready to go.

Pure driving pleasure. In perfect safety.

A good grip, reliable acceleration, controlled driving dynamics – almost no other components bear as much responsibility as the wheels. Both for safe driving and for the vehicle's overall look. Our developers, designers and engineers master the balancing act between form and function on a daily basis. They do this by combining top-quality materials with first-class designs to create flawless functions. They then subject the results to intensive testing and refinement until they meet our Volkswagen standards of quality and safety.

We test for your safety.

We are not satisfied with just offering you top quality. Therefore our inspection procedures are more extensive, stricter and harder than those demanded by law. And our products are simply safer.

Strength tests

The rotating bending test simulates the wheel loads when cornering, whereas the roll-off test checks the wheel under overload conditions and the impact test puts the impact strength of the edge of the wheel to the test.

Material and surface tests

These tests determine the chemical composition, tensile strength and strain properties of the wheel along with the resistance of the wheel's surface to scratching and corrosion.

Endurance testing

The endurance test is carried out using a bi-axial wheel test bay (ZWARP). This test rig simulates the greatest loads which can occur across the lifetime of a wheel.

Vehicle tests

The clearance test, the wheel bolt tightness test and the threshold test serve to test the wheels under tough conditions on the test track.

Volkswagen Accessories. Because Genuine quality is always worthwhile.

Transport

Your personal place in the sun.

Or would you prefer a spot on cloud nine? Or for a bicycle, picnic basket, winter coat, your favourite book and shoe collection. And of course for anything you think of when planning a trip to the great outdoors. Simply use the Volkswagen Accessories transport solutions and there will be a place for everything. Without a doubt.

Note

QUALITY IS WHEN THINGS SIMPLY FIT.

For everyone who wants more: even more.

More intelligent transport options, for instance. Or more tested safety features. Or simply more of the trusted quality of Volkswagen Genuine Accessories. A trust which is not simply given to the genuine parts but which has to be earned again and again, day after day. Through materials which simply combine better, product designs which simply look better and functions which simply open up additional opportunities. In other words: with the clear desire to make good things better every day. More beautiful, more functional and safer.

Uncompromising satisfaction.

Harder, stricter, further, more – the Volkswagen test procedures go beyond the legally prescribed standards. In terms of materials, in the laboratory and finally on the test track. Only 100% quality products are given the Volkswagen Genuine name. No compromises.

Laboratory testing: Corrosion test in saltwater spray systems, UV resistance, environmental compatibility and many additional laboratory tests examine all the relevant material properties. The climate chamber subjects the products to extreme temperatures ranging from -30° Celsius to $+90^{\circ}$ Celsius. The components' function must be guaranteed and unimpaired at all times.

Endurance: Whether short distances, high-speed or route profiles of varying difficulty - durability under continuous load conditions is tested. The special road endurance test is carried out with a distance of 20,000 km using the maximum permissible load and a variety of different testing profiles.

Test track: Test drives with maximum acceleration both forwards and to the sides, for instance by weaving around obstacles, emergency braking or over cobblestones subject the accessories to extremely hard tests over and over again.

**Volkswagen Accessories.
Because Genuine quality is always worthwhile.**

Genuine quality is always worthwhile:

- An absolutely perfect fit
- Intensively tested safety
- Easy fitting and removal
- Sophisticated system solutions
- High design standards

01 Volkswagen Genuine Compact II bicycle carrier, foldable

The small, light and compact bicycle carrier weighs only 14 kg and is made in Germany. It is capable of carrying two bicycles or e-bikes with a total weight of up to 60 kg. When mounted on the towing hitch, the bicycle carrier can be conveniently folded downward using the new foot switch to allow access to the rear hatch. When fully folded up, it can be stored in the luggage compartment in no time at all. A bicycle carrier for three bicycles is also available upon request. A practical storage bag is included in the scope of delivery. Folded dimensions: 24 x 58 x 62 cm (for 2 bicycles).

Follow your instinct.

The need for safety is a primal human instinct: We protect what we love. We simply have to. Fortunately, not all the time. Because Volkswagen Accessories takes care of protecting everything we hold dear. Not simply instinctively but also with exceptional comfort thanks to thousands of years of evolution and progress.

HIGH LEVEL OF SAFETY FOR LITTLE ONES.

Musical boxes, teething rings, picture books or story books – all ages have their own milestones, whether little or large. Every stage of development also has its own challenges. That is why we have developed child safety seats for each age group. Each one offers a convincing combination of high sitting comfort, easy handling and also exceeds the requirements of the ECE-R44/04 standard. All covers can be easily removed and washed at 30°C. And the most important point: your child is well protected when travelling.

01 Volkswagen Genuine G0 plus ISOFIX

High protection and comfort for new-born babies and babies up to 13 kg or 15 months old: The ISOFIX fastening system ensures that the child seat with its base frame is securely fastened to the vehicle body. Without ISOFIX it can also be used with any 3-point belt. The child is securely held in the seat by a height-adjustable, 5-point full belt safety harness. Further features include an adjustable handle, an easily removable, washable fabric covering, an adjustable-height seat insert and a sun shade.

02 Volkswagen Genuine G1 ISOFIX DUO plus Top Tether

Safety and seating comfort for children weighing between 9 and 18 kg (from eight months to approximately four years old). The height of both the full safety harnesses and the sleep support can be adjusted. Furthermore, the sitting position can be adjusted in multiple ways. In addition to the tried and trusted locking system using an ISOFIX connection, the seat is secured at the provided fasteners in the luggage compartment by means of the “top tether” connection in suitably fitted vehicles – thus providing additional support.

Art. no. 5G0 019 909 A

03 Volkswagen Genuine G2-3 ISOFIX

Children aged between 3 and 12 years (15 to 36 kg) travel safely and comfortably thanks to the height-adjustable sleep supports and the possibility of individually adjusting the height and inclination of the seat to the needs of the child. The seat is attached using the vehicle's ISOFIX anchorage points. The child itself is buckled in using the 3-point seatbelt in the child's seat.
